

**Bringing together accounting expertise and industry insights: That's our blueprint for success.**

**Bidding and managing projects, hiring and training staff, maintaining union compliance** — construction is just a small part of a successful construction business. And for everything that doesn't require a hard hat, Maner Costerisan construction experts are here to help. We offer advisory services designed to increase your profitability, improve your competitive position and reduce your operating costs — all designed to drive a competitive advantage in an increasingly competitive industry. Every client works exclusively with senior-level staff to get help wherever and whenever you need it — from CFO-level solutions to part-time bookkeeping support, taxes to technology, the big picture to day-to-day details. We're here to help you break new ground and reach new levels of success.

**Expertise in action:**

# The right support, exactly where it's needed.

Our team is ready to step in and help out with the key areas that keep construction businesses productive, profitable and protected.

## Tax Planning

We know tax law front to back, and are two steps ahead of the latest legislative changes, so you can capitalize on every tax opportunity available. We'll develop a customized tax strategy built around your specific needs and challenges – while helping you avoid any compliance issues.

## Strategic Planning

You know where you want to go. Our experts know the landscape and complexities of your industry. Together, we can create a step-by-step plan that lets you focus on the day-to-day while working toward your long-term goals.

## Reporting & KPIs

We can help you develop and customize user-friendly dashboards that provide a deep level of insight into your business's key performance metrics in real-time. Maner can also help you understand the data and dig into areas of concern and opportunity to understand impact points and how they influence whether you reach your goals.

## Audit & Assurance

Providing on-time delivery of accurate and detailed audits is just the start. Our experts don't just simplify the audit process, they amplify your success with actionable reports that ensure your business is compliant and operating as effectively as possible.

**We also offer Succession Planning, Technology support and additional advisory services to ensure your business's short- and long-term success.**
