

Financial expertise and industry know-how to help cannabis companies keep growing.

Focused on your next move. Cannabis is America's fastest-growing industry – and with such rapid growth comes fast-changing regulations and unique business challenges. Maner Costerisan is an established, experienced and trusted business partner in the Michigan cannabis industry. We understand the problems that keep cannabis leaders up at night, and we have proven solutions to help your business succeed today – while building a sound strategy for future growth.

**Maner
Costerisan**

Let's turn America's new cash crop into a long-term plan for success.

Maner Costerisan's experience, expertise and customized solutions make us uniquely qualified to tackle the regulations and challenges specific to your cannabis business.

Consulting

At Maner Costerisan, we don't do one-size-fits-all. The first thing we do is find out your individual goals. Then we create a step-by-step plan to get you there. From entity selection support to designing a buying and selling strategy, our team has the industry expertise and experience to move your business forward. Plus, a strong network of reputable partners to assist with any need — no matter how niche.

Outsourced Accounting/CFO Services

Our financial and industry experts offer diversified, CFO-level experience to help cannabis businesses improve cash flow, guide strategic planning, pinpoint opportunities for growth and promote long-term success.

401(k) & Qualified Retirement Plans

Unlike many others in the industry, we offer these "standard" perks for you and your employees, which help set you apart in the competitive recruiting market.

Technology

With secure accounting software and system integrations, your entire team can leverage real-time data to make better business decisions.

Tax Planning & 280E

Whether you're a grower, a retail shop, provisioning center or vertically integrated, we'll develop a customized tax strategy built around your specific needs and challenges — while helping you avoid any compliance issues.
