

Providing nonprofits the support they can count on.

Charitable organizations create change, improve lives and make the world a better place — but that is only possible with a solid financial foundation and a sound plan of action. As trusted advisors to over 400 nonprofit organizations across the Great Lakes region, Maner Costerisan can help make an impact. We understand your unique challenges. From funding, grant-making and reporting requirements to donor engagement, technology, and the struggle to get the most out of limited resources — we use our experience and industry connections to help create proactive solutions built to support your goals and long-term success. Trust our team of experts to help guide your next move, so you can focus 100% on your mission.

For charitable organizations, the right support makes all the difference.

No two nonprofits are the same, and neither is the way we help them. Our advisors tailor solutions around your organization's mission, where you are today and where you want to be tomorrow. We then customize a plan to give your organization exactly the support it needs to make an even bigger difference, no matter your budget, focus, limitations or big-picture goals.

Outsourced Accounting Solutions

Whether your nonprofit needs temporary accounting help, assistance in training your team members or someone to fill a permanent role, our accounting experts know the ins and outs of nonprofit finances and can step in to help you gain efficiencies and reduce stress.

Nonprofit Tax Planning

We are well-versed in nonprofit tax compliance, legislation, and future planning so we can develop a strategy that reduces your tax impact and keeps you compliant with the IRS & state agencies. Our team of experts can not only assist with your annual compliance filings, but we can consult with you on starting a nonprofit organization and keeping your exempt status. We have knowledge in many areas, including, but not limited to, lobbying, public support compliance and planning, fundraising and unrelated business income.

CFO Advisory Services

Whether you're looking to fund a special project or could use long-term strategic support, any size organization can now benefit from insight and data expertise that comes with a CFO. Whether you're looking to build a long-term financial strategy to support your growth for years to come or you just want to maximize a large gift, see the difference experience can make.

Technology

Our tech experts will make sure you get the perfect technology upgrade for your organization – reducing manual work, increasing transparency and integrating with your systems. Most important, we can help you gain access to real-time data and KPIs that empower senior leaders and the board to make the most informed decisions possible.

Wealth Management

Our team offers deeper, complex and integrated solutions to do more with your money. We work to protect and grow your organization's reserves, bringing together expertise from across the firm in key areas, including gift tax consulting and charitable giving, investments and retirement planning (for your team). Our experts take a holistic approach to create a customized financial plan tailored around what you want to achieve with your reserves.

"Maner has been a awesome to work with – they are super responsive, always helpful, and really go above and beyond to answer our questions. They explain things in an easily understandable manner."

– Annette Sobocinski
